Stilus 3VO Machine

Fully technological, surprisingly dynamic.

Stilus EVO is the most sophisticated dermograph with the highest performances across the range of Biotek Permanent Make-up devices.

Easy to handle and to use, it is designed to assure versatility to professionals, giving more dynamism and flexibility, adapting to every manuality. The combination of technology, high-tech materials, compact size and lightness make Stilus EVO unique.

Thanks to the display and multifunction menu, which allows a wide range of configurations, Stilus EVO guarantees always the right answer. The digital menu will guide you among various applications optimizing specific functions for both permanent make-up and medical procedures.

Powerful, but at the same time gentle on the skin, it guarantees easy color deposit and perfect duration.

Kit Stilus EVO Cartridge System

E641A € 2.800,00

The Kit contains: Stilus Evo Machine - Digital Console - Power Supply 115-230 V - On-off Pedal
 Connecting cable - Magnetic machine support - Use and maintenance manual
 12 months international warranty - CE Certification. Supplied in a black standard case.

New BIOTEK Multi-PRO

Maximum performance on all fronts.

BIOTEK Multi-PRO is an innovative Multifunction Digital Console for professionals of dermopigmentation. Characterized by a classic and simple design, it combines the proven performance and reliability of BIOTEK with an exceptional value and a great versatility.

The console allows to manage different handpieces in a simple way, which enable to perform facials, body and scalp treatments by taking advantage of three important technologies independently:

- Stilus EVO - the best technology for the permanent makeup, always included.

In addition, a choice of:

- Stilus MED - the only specific handpiece for dermo-medical applications.
- Tricoliner - exclusive dermograph designed for hair pigmentation.
- BIO-Needling - exclusively designed for the needling treatment.

The BIOTEK Multi-PRO Console is provided in the basic configuration, with 2 handpieces: STILUS EVO + second handpiece of your choice.

Double Stilus Multi-PRO Kit (Stilus EVO + 2° handpiece) E344A € 4.900,00

The Kit contains: Stilus EVO Machine + second handpiece of your choice - Multi-PRO Digital Console

Complements and accessories

Pigment Light Indicator

A concrete support

The new Biotek device is the ideal tool to verify immediately if the pigment is released evenly.

Place the special infrared on the skin treated and check the uniformity of the lines.

The light will properly detect non-pigmented areas, giving you the opportunity to correct any anomalies in the line immediately.

Make up Design

To make a perfect application, it is essential to know how to deal with the preliminary drawing. This phase is very delicate and complex, because a wrong design may compromise the end result. The correct application of make-up design rules is essential both for the traditional make-up and for dermopigmentation procedure.

Procedure accessories and disposables

During the procedure is very important to use disposable accessories to avoid any kind of contamination for both the operator and the customer. The working area, the table, the lamp, and in particular all tools must be covered by protective films. Also the operator must always wear disposable mask, gloves, head bonnet and uniform.
